

Knowledge Update Impact Evaluation 2016

Knowledge Update is our email alerting service, offering regular updates on new journal articles, books and reports

Keeps me up to date with diagnostic criteria and acute management resulting in quicker and better treatment

92% said the service was 'Excellent' or 'Good'

I love the service. It is such a quick and very handy way to see exactly what's newly researched in my specific area.

Survey sent to all 750 subscribers. 63 responses received

It has enabled me to keep up to date with developments in commissioning and health leadership in particular

33% said it had influenced service development and planning

It has helped with contributing to evidence based practice and recommendations for patients

69% said it had changed some aspect of patient care or treatment

Changed the advice I give to patients about side effects of radiotherapy as a result of research which I read

35% said it had changed some aspect of guideline or pathway development

45 topic bulletins now available
